Results		
1 st		Winner of V9.
2 nd		Loser of V9.
3 rd		Winner of V8.
4 th		Loser of V8.
5 th		Winner of V7 (if played at all; if not, see * below).
6 th		Loser of V7 (if played at all; if not, see * below).
7 th		Rank the remaining 2 teams 7 th and 8 th by descending number of points they earned in the game they lost (V1, V2, V3, or V4). If this results in a tie, flip a coin.
8 th		

* Since the 5th-place team goes to State and the 6th-place team doesn't, it is desirable to play an actual game (V7) to decide 5th and 6th. However, V7 will be played only if the tournament is roughly on schedule as of 11:00. If the tournament is running more than 15 minutes late as of 11:00, V7 is cancelled so that V8 and V9 can be played on time. In that case, rank the losers of V1, V2, V3, and V4 5th-8th by descending number of points they earned in the game they lost. If there are any ties, flip a coin. **The proctors will post information at 11:00 indicating whether V7 will be played or not and, if so, which 2 teams qualified to play it.** If there is time to play V7 but 1 of the 2 teams qualified to play V7 fails to show up, the team that does show up defaults to 5th and the team that doesn't show up defaults to 6th. If both teams fail to show up, rank 5th-8th as previously described in this footnote.
